CORPORATE ENVIRONMENTAL STATEMENT

Building Cosmetic Services is committed to the care of the environment, as part of its business strategy. The company will actively support the development of practical environmental policies for its industry, will be informed about its environmental practices and will aim for high standards of environmental management.

This environmental policy will be taken into account, when making financial and operational decisions.

The policy of Building Cosmetic Services Ltd is to:

- Establish a management structure, which ensures effective environmental management, including training and environmental reviews.
- Comply with present environmental legislation and standards, whilst anticipating and contributing to new legislation and standards.
- Minimise waste production, maximise recycling and re-use and dispose of residue safely.
- Aim to reduce the visual impact of its operations.
- Optimise the use of energy and raw materials.
- Manage water to conserve its use and to protect discharge.
- Seek suppliers and contractors who have high environmental performance standards.
- Take into account environmental considerations in the design of new products, packaging and processes.
- Communicate all aspects of this policy to employees and customers.
